

- use this scale for the points of attention

	<p>Winery touring in large groups is not recommended due to inability to hearing the tour guide.</p> <p>Free of charge wine tasting of many high quality products, along with food offerings, what else would someone ask for?</p>	
<p>Great visit, if only the tour was made in smaller groups. More specifically, the winery is easy enough to reach, close to the city, the staff was very knowledgeable and friendly, the winery is beautiful, there was no fee for visiting or tasting, the tasting room was sunny, the selection of wines was satisfactory and also food was offered.</p>	<p><b>POINTS OF ATTENTION:</b>          Selection of wines: +++++          Friendliness and know-how of staff: +++++          Pricing: +++++          Wine Quality: +++++          Overall impression: +++++</p>	<p><b>POINTS OF ATTENTION:</b>          Selection of wines: +++++          Friendliness and know-how of staff: +++++          Pricing: +++++          Wine Quality: +++++          Overall impression: +++++</p>
	<p>The staff was professional but not very friendly.</p> <p>However, the tour was satisfactory and detailed, while there was offered free of charge a big selection of wines.</p>	
<p>It was a good visit overall. The winery is not easy to reach by public transport, you need a car to get there but the tour was professional and detailed, the staff was not very friendly though. The building was impressive, but the tasting room a bit dark. The selection of wines, which were offered free of charge was the biggest and the wines were of high quality.</p>	<p><b>POINTS OF ATTENTION:</b>          Selection of wines: +++++          Friendliness and know-how of staff: +++          Pricing: +++++          Wine Quality: +++++          Overall impression: +++++</p>	<p><b>POINTS OF ATTENTION:</b>          Selection of wines: +++++          Friendliness and know-how of staff: +++          Pricing: +++++          Wine Quality: +++++          Overall impression: +++++</p>
	<p>The tour guide was friendly and willing to visit both vineyards and winery.</p> <p>The winery was small scale, with limited space, especially the wine cellar was very small and not easily accessible</p>	
<p>This was a small scale winery. The winery is easy enough to reach. The staff was very friendly and willing to tour both the vineyards and winery but a bit inexperienced. The building was nothing special, there was not a special area for tasting and the offering of wines was limited. However, the quality of products was satisfactory and the winery store had offers.</p>	<p><b>POINTS OF ATTENTION:</b>          Selection of wines: +++          Friendliness and know-how of staff: +++++          Pricing: +++++          Wine Quality: +++          Overall impression: +++</p>	<p><b>POINTS OF ATTENTION:</b>          Selection of wines: +++          Friendliness and know-how of staff: +++++          Pricing: +++++          Wine Quality: +++          Overall impression: +++</p>
<p>Visit in small groups, in order to be able to hearing the tour guide.</p> <p>The tour guide should be friendly and knowledgeable regarding winemaking, able to answer technical questions and willing to give time for questions.</p> <p>The offering of free wine is always a bonus for visitors.</p>
